

Early Phase Oncology Expertise IQVIA Biotech Australia

Over the past decade, Australia has emerged as the leading destination for early phase oncology clinical trials

33% of early phase oncology studies in Australia are sponsored by Emerging Biotech

Our ANZ* Oncology Advisory Board

*Australia and New Zealand

Early phase oncology EPON* site network

Established network of qualified private/public **Phase I Oncology sites** with FIH experience. This includes KOLs who are part of our **Oncology Advisory Board**.

- Oversight of clinical trial activities throughout the process
- Shorter start-up timelines (~3-4 months) from EC submission to CTN Acknowledgement
- > 20 sites available for FIH/phase Ia and > 20 sites available for phase Ib studies
- CAGT* study also can be conducted by selected sites

*EPON: Early Phase Oncology Network, CAGT: Cell and Gene Therapy
