Course Outlines

TSA/GPM/Xponent

This course introduces you to the TSA, GPM and Xponent products, the databases and their applications. The data collection processes and quality assurance procedures are reviewed, and confidentiality is discussed especially in how it pertains to prescriber-level data. A Territory Planning Model showing all three products is reviewed so you can understand how these products can be utilized together in the field.

Course Length: 3 hours

Prerequisites: None

IQVIA Analysis Manager (IAM)

IQVIA Analysis Manager is a windows-based on-line analysis tool. Through workshop exercises, this course teaches you how to use IQVIA Analysis Manager to obtain market research data by creating reports, graphs and detailed analyses using the IQVIA Pharmaceutical Audit data.

Prerequisites:

1. An overall knowledge of the IQVIA Pharmaceutical Audit data (Canadian Drugstore & Hospital Purchases Audit (CDH) and Canadian CompuScript (CS)) *.
2. Your active IQVIA Analysis Manager account. To confirm access to IQVIA Analysis Manager, contact your IQVIA Customer Support Representative.

* E-Learning modules for the Canadian Drugstore & Hospital and CompuScript audits are available on the IQVIA Customer Portal.

Course Length: 5 hours

Lunch will be provided.

Prerequisites: None
