

POTENTIAL IMPACT WHEN APPLYING STRATEGIC APPROACHES TO MEXICO

GDP growth and allocative efficiency approaches met country level challenges for Mexico with high feasibility and economic impact.

APPROACHES TO MEET SUSTAINABILITY CHALLENGES IN MEXICO

1 INNOVATIVE CONTRACTING

- Constrained or Reduced Healthcare Budget

3 INNOVATIVE GRANTS FOR INVESTMENT

- Need for Technical Capabilities

2 INTEGRATED HEALTHCARE MODEL

- Constrained or Reduced Healthcare Budget

4 PROMOTION OF LOCAL R&D

- Need for Technical Capabilities

5 TECHNOLOGY TRANSFER AND PRIVATE PARTNERSHIPS

- Need for Technical Capabilities

PERCEIVED BENEFITS OF STRATEGIC APPROACHES

Prioritized By Economic Impact and Feasibility.

5 Technology transfer and private partnerships would further promote skill building through increased opportunities to learn best practices within the healthcare sector.

4 Promotion of local R&D provides new jobs, the construction of new sites housing trials and robust local economies.

1 Innovative contracting provides health systems with the opportunity to more directly measure and pay for value.
