

IQVIA Clinical Trial Payments

Combining stellar service and experience

With over 15 years' experience in global payments and 2.5 billion in on-time payments across 60 plus countries, IQVIA offers payment options that meet the needs of any sponsor or CRO.

Choose your business model

With IQVIA you can move freely between any financial model as your business needs evolve. With a site payments portal that offers full transparency, you can choose to completely outsource your payments process to our experts or adopt a hybrid model, where you can pick and choose the services provided.

Site portal features

In addition to third-party system integrations, customizable workflows, and ProForma invoicing, IQVIA Technologies offers:

Global vat optimization

With 12 years' experience, IQVIA can improve the cost efficiencies of your global trials by leveraging local considerations and eliminating over-payments.

Just-in-time funding

Take advantage of just-in-time funding that maximizes cash flow so you have more liquidity to invest your budget in other key aspects of your clinical trial program.

Forecasting

Developed using industry-leading business intelligence software tools, IQVIA Technologies forecasting technology uses planned data in combination with real-time data to model and forecast future expenditures and cash flow.

Aggregate spend reporting

IQVIA Clinical Trial Payments provides sponsors and CROs with a variety of reporting options such as global VAT optimization by country and flexible funding options.

“When it comes to the financial lifecycle no one offers the level of detail that IQVIA does. We're able to match each individual payment with each patient visit in seconds. This makes my reconciliation process a breeze and has reduced our time to collect outstanding payments by 100 days!”

— Sandy Zipp, Director of Study Accounting | Synexus USA (Formerly Radiant Research)
