IQVIA Grants and Funding Management

*Purpose-built for life sciences. Built to evolve with industry changes.*

Effectively manage your strategic giving programs with IQVIA Grants and Funding Management. Built on our Orchestrated Customer Engagement (OCE) platform, this global SaaS based tool automates workflows through every phase of the external funding and in-kind support process to accelerate funding and improve efficiencies. With an external portal for intake, intuitive user interface, streamlined workflows, and smart checklists, Grants and Funding Management enables seamless application routing and status checks, with automated communication to users throughout the review process.

Research & Funding
Investigator Initiated Studies / Early Access Programs / Interventional / Non-Interventional / Observational

Medical Education

Sponsorships / Fundraisers and Exhibits / Product Donations

A single solution to manage the complexity of life sciences grants

Charitable Contributions / Donations

Corporate Memberships

Fellowships / Investigator Awards

Patient Advocacy

Key benefits:

- Embedded compliance that evolves with changing global requirements:
  - » Centralized and standardized information
  - » Internal audits
  - » Compliance oversight of grant types
  - » Standardized communications
  - » Documentation of activities

- Mitigate risk with solution screens for tax status, exclusion lists, and submission of required documentation

- Streamlined and automated workflows with application routing, status checks and email alerts

- Data driven insights to enable smart decision making

- Integration capabilities to allow capture of HCP / HCO spend data to work parallel with transparency and solutions

Accelerate funding with streamlined and automated processes

Internal and External Submission → **Review** → **Approval** → **Agreements** → **Payments and Reconciliation** → **Financial Review/ Report** → **Audit and Monitoring**

Achieve full transparency of your grant portfolio, improving efficacy and efficiency. Benefit from robust reporting capabilities with standard, ad hoc, and custom reporting options. Reduce development timelines and business KPI impact with out-of-the-box configurations that follow industry standards.

## Go beyond technology with consulting and managed services

Designing and managing a grant program comes with many complexities. IQVIA Commercial Compliance offers a full suite of consulting and managed service offerings designed to meet your needs.

Grants consulting

- Process and charter design

- Program advisement, standard operating process (SOP) development, including advisement, requestor training, and technology guidance

Grants program management

- Grants coordination with full system and process administration services

- Requestor submission report, request reviews, contracting, reconciliation, outcomes review and reporting

- End to end grants program management

- Strategic planning, budget planning, education objectives, grants request recommendation and running committee meetings

Purpose built for life sciences

Technology and data-driven insights are essential to demonstrating the impact of your grants program, especially with the need to communicate the value to stakeholders. With a platform built for life sciences, Grants and Funding Management offers the flexibility required to provide complex reporting and analytics dashboards for easy consumption of insights, while at the same time supporting standardization and collaboration across different regions.
