

# GrantPlan for Investigators

*Forecast and evaluate with the only cost benchmarking solution dedicated to Investigator Initiated Studies (IIS)*

## Assess fair market value for IIS grants

IQVIA GrantPlan is the only global investigator initiated, grant cost benchmarking, and budgeting solution that enables you to confidently steer your competitive grant budgeting and negotiations to success.

That is because IQVIA GrantPlan is designed to create an unparalleled level of transparency and collaboration between investigators and companies.

## Simplify submission, evaluation, negotiation and budgeting with a clear path

Fair Market Values (FMV) on a granular level, including personnel fees (per hour and FTE)

FMV from industry and company historical data

Best practices from subject matter experts and industry thought leaders

Version control, including amendment management

Central repository for budgets and executed financial details

Evaluate proposals against appropriate benchmarks

Negotiate from a position of confidence

Budget with a clear path to timely study completion
