

# IQVIA Health Data Catalog

*The go-to global source to rapidly identify the most relevant datasets from the largest agnostic Real World Data catalog*

Profiling datasets remains a challenging and laborious process due to data overwhelm and heterogeneity. IQVIA Health Data Catalog takes the headache out of identifying the right RWD sources. Thanks to the ability to rapidly search 3,000+ unique global data assets with 200+ variables describing patient data, you can identify the most relevant data assets for your project faster than ever.

# Why IQVIA Health Data Catalog accelerates time to insight

## Broad

### 3000+ data assets

- The largest agnostic global Real World Data catalog
- **100+ countries** covered
- Multiple data categories, including EMR, pharmacy data, claims, genomics, imaging data sets, etc.

## Deep

### 200+ variables

- Powerful search and filtering capabilities
- Comprehensively explore and efficiently compare +200 variables to qualify assets with key metrics and related publications

## Relevant

### and up-to-date

- Single version of truth
- Be confident you're viewing the most up-to-date information uniquely maintained, governed, and orchestrated centrally

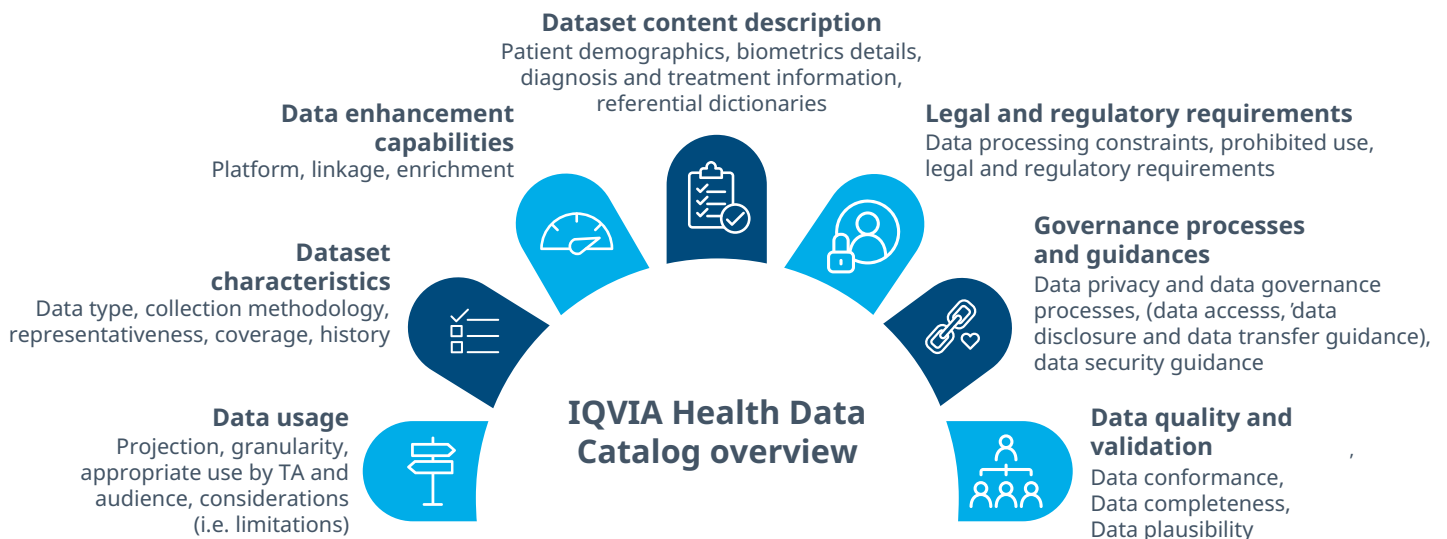

## Time saving

10-fold time savings to identify assets

## Actionable

Customize, export and share the results
