

# IQVIA RIM Smart Content Management

*Empower your regulatory teams to collaboratively create and approve submission-ready documents at scale*

RIM Smart Content Management, an integral module in the IQVIA RIM Smart platform, delivers a versatile SaaS solution to assemble augmented content for publishing efficiently and compliantly throughout the regulatory submission process.

## Why choose a modern, cloud-based content management solution?

Reliance on simple fileshare and SharePoint solutions limits collaboration on submission and labeling content. Manual document management, including reconciliation of renditions and relationships, is inefficient and may pose compliance risks.

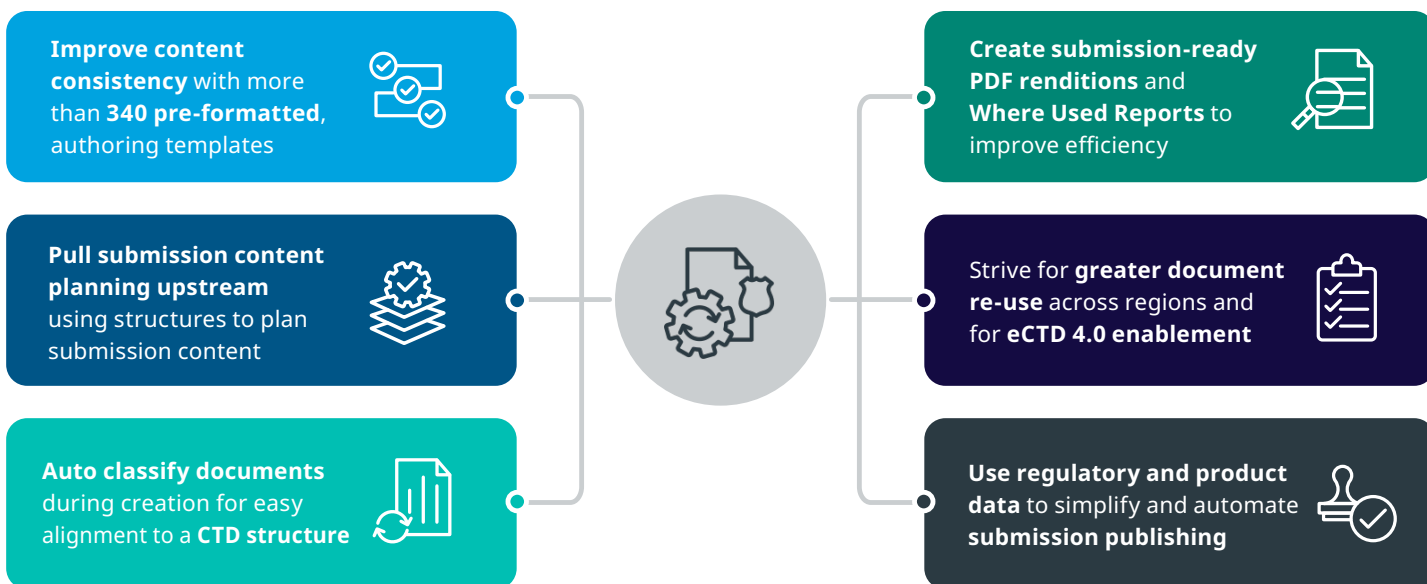

The intuitive dashboard displays user activities including active documents, configurable workflows, tasks, and notifications in one central location.

## RIM Smart Content Management transforms submission content planning and production

 <b>QUALITY</b>	 <b>ACCELERATE</b>	 <b>REDUCE COSTS</b>	 <b>EFFICIENT</b>	 <b>COMPLIANT</b>
<p>Improve document quality through collaboration among stakeholders.</p>	<p>Streamline your workflows to accelerate content review and approval.</p>	<p>Lower waste from errors in producing submission and label content.</p>	<p>View real-time progress with task completion and timeline risks of content.</p>	<p>Deliver peace of mind by adhering to industry standards and ensuring GXP compliance.</p>

## Content management that enhances submission publishing

RIM Smart Content Management provides tools that streamline how regulatory professionals plan and work together on the content submission process, which includes classifying documents, promoting reuse, supporting automation, and reducing submission timelines.

## Support submission content and labeling in a unified platform

RIM Smart Content Management maintains one global source of authoritative content across your regulatory portfolio and synchronizes complete product metadata – including regional market and study information.

### Submission Content Planning and Publishing

- Support RIM Smart Content Management in staging area
- Search and filter documents in system- and user-defined views
- Associate documents from RIM Smart Content Management with the submission
- View reports about documents, properties, and where used
- Support hyperlink and bookmark creation on documents
- Bind to specific version and rendition of a document source file
- Enable and manage migration of bound documents between versions

### Labeling and Content Management

- Monitor label and artwork activity, workflows, tasks and states
- Recommend label documents and artwork impacted by changes
- Create and approve planned documents before developing actual content
- Manage stages and tasks alongside documents within the planner
- Manage translations and relationships to original source documents
- Notify submission coordinator when label content is approved
- Initiate change cycles upon rejection of the labeling assets

# Orchestrate submission content efficiently and compliantly

## Control

- **Manage regulatory documents** across the lifecycle including timelines, relationships, permissions, and various renditions.
- **Monitor organizational usage** with metrics for document production, authors and reviewers, etc.
- **Organize documents** based on Product, Application, Composition, Study data, etc.

## Compliance

- **Regulatory-ready** with FDA's 21 CFR Part 11 requirements governing electronic records, audit trails, and digital signatures.
- **Manage documents** in accordance with industry standard CTD and eCTD content structures.
- **Minimize validation burden** with a cloud-based solution.

## Our Vision

IQVIA's vision is to empower your organization to focus its resources on what's important: bringing valuable products to market and keeping them there.

### Our vision is built on three core foundations:

<b>CONNECTED INTELLIGENCE</b>	Immersing users within an environment to provide complete awareness with actionable insights that are never more than one click away.
<b>ROBOTIC AUTOMATION</b>	With its intuitive automation, simplification and integration, RIM Smart streamlines processes, improves data accuracy, and delivers exponential increases in productivity.
<b>REGULATORY INSIGHT</b>	Uncovering strategic, regulatory, and compliance updates in real time, actively monitoring and alerting users to changes or emerging trends.

IQVIA's vision goes beyond just optimizing diverse quality, regulatory, and safety systems: it pioneers the transformation of compliance from a burden to a competitive advantage.
