

# IQVIA Safety Suite

*A comprehensive safety solution that is built, used and supported by industry experts*

IQVIA Safety Suite represents a revolutionary approach to pharmacovigilance that seamlessly combines cutting-edge technology with unparalleled industry expertise. The most complex challenges in drug safety management are addressed, transforming how organizations approach safety monitoring and risk management.

- **End-to-end solution:** Combined technology-service model streamlines safety operations through tech-enabled workflows and AI-powered automation; delivers efficiencies in cost of case processing
- **Comprehensive data access:** Full data access provides real-time insights, customizable reports, and robust analytics to help you more effectively manage risk
- **Deep expertise:** IQVIA solutions are scalable across 160+ countries, and supported by extensive regulatory intelligence, safety and operations data, and the industry's largest safety team

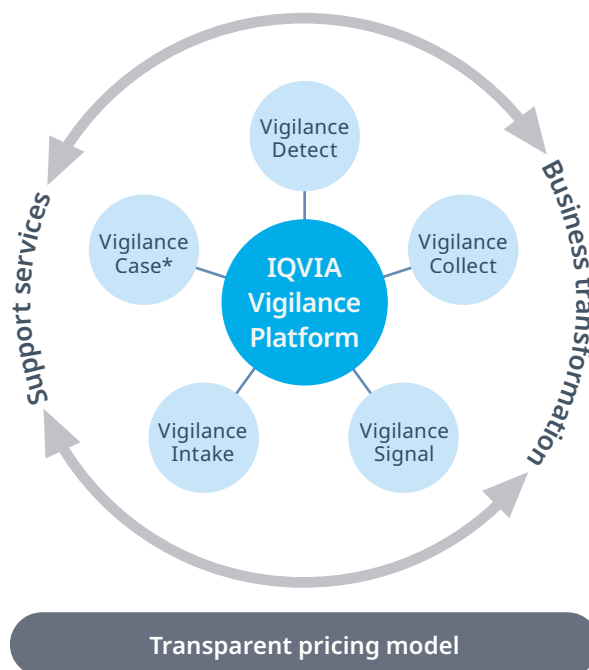

## **IQVIA Vigilance Platform: Intelligent safety automation**

IQVIA Vigilance Platform delivers intelligent automation that dramatically transforms safety data management. Designed to meet the most demanding pharmacovigilance requirements, IQVIA Vigilance Platform offers you a robust set of capabilities: automated case processing, multi-channel adverse event intake, real-time signal detection, comprehensive analytics, multilingual support, and advanced AI-powered data extraction.

*The most complex challenges in drug safety management are addressed.*

## **IQVIA Safety Suite**

\* Vigilance Case includes: Intake, Case, Submissions, Periodics, Analytics

#### SUPPORT SERVICES

**Expert support and continuous innovation:** Leverage the latest technology and best practices from industry experts that understand how to implement software and maximize its benefit

#### BUSINESS TRANSFORMATION

**Technology and automation:** Cutting-edge technology and AI built just for Pharma allows you to focus on higher-value tasks and strategic decision-making

#### TRANSPARENT PRICING MODEL

**Reduced costs:** IQVIA Vigilance Platform provides immediate cost savings and ensures year-over-year efficiency gains through continuous process optimization and a single point of accountability for all safety operations

**Transparent and predictable pricing:** Manage budgets more effectively and avoid unexpected expenses with a pricing model that offers cost certainty and rewards efficiency

#### **IQVIA Integrated Safety: Connect technology, services and processes**

IQVIA leads the way in combining safety services and technology solutions. Our flexible, integrated model can provide safety services throughout a product's lifecycle. With almost 40 years of active pharmacovigilance experience, IQVIA has supported over 500 customers, processing millions of cases with over 99% quality and compliance.

#### **TRANSFORM YOUR BUSINESS, NOT JUST YOUR SOFTWARE**

Gain more than just a technological solution: benefit from a transformative platform that addresses the most complex challenges in drug safety management.
