Registration Process: What you need to know

- Supplier Registration is a two step process: Register in Oracle Cloud and on the Coupa Supplier Portal
- You will not receive Purchase Orders or be able to submit invoices until registration in both is complete
- Your remittance information must remain in sync between Oracle Cloud and the Coupa Supplier Portal
- If your remittance information changes in future, then please make the updates in both Oracle Cloud and Coupa Supplier Portal before using the new remittance information on the invoice

Coupa Registration

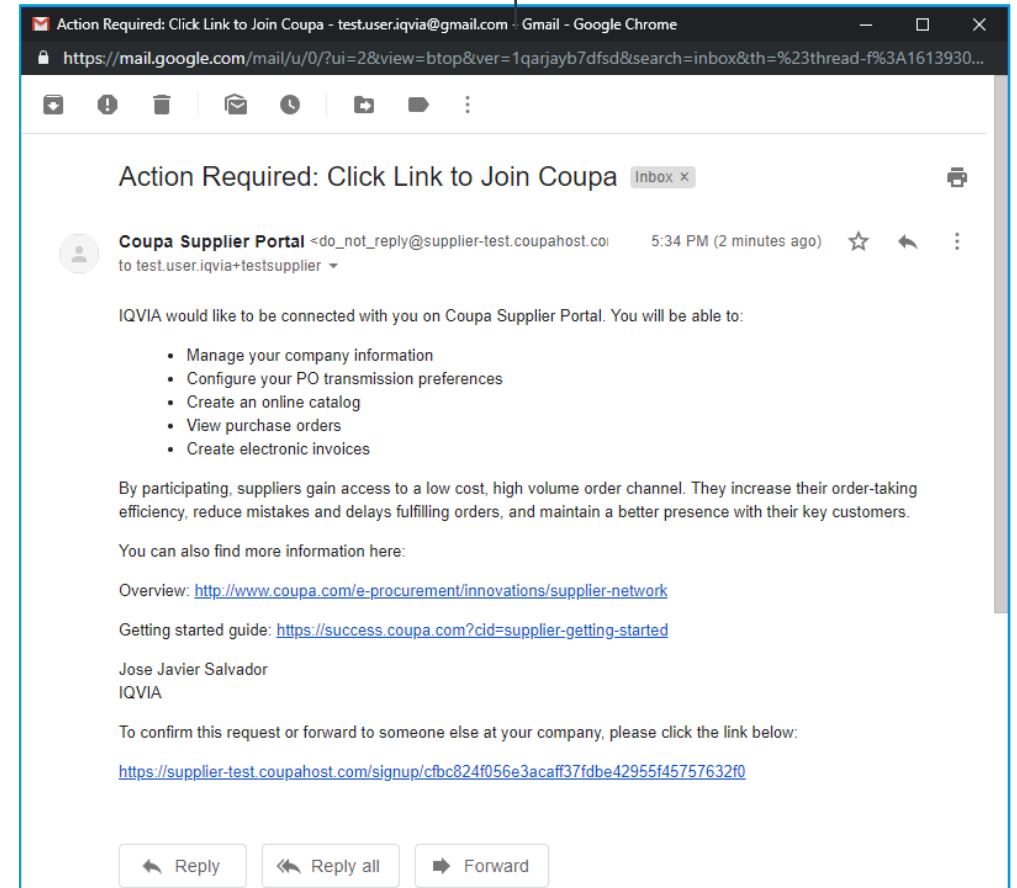

Coupa Supplier Portal (CSP)

- ❖ CSP is an online portal that provides an easy way to manage information, view purchase orders, create & manage invoices, and catalogues.
- ❖ An email invitation to join CSP will be sent by IQVIA (to the email address you have previously supplied us).
- ❖ This email will contain a Coupa Overview, a Coupa Getting Started Guide, and a link for you to create your password. Click the link to begin.
- ❖ If you transact with your customers through PO methods other than the CSP and you are not linked to the CSP, you can see the Create Account button in your PO notification email.

Note: If you are already linked to the CSP, you can see the **Login** button instead of **Create Account**.

Note: If you do not receive your invitation email, check your spam folder..

Coupa Supplier Portal

- ❖ Coupa will default the contact information for you
- ❖ In the “Password” field, enter a password that you will use to log into the CSP (Password should be at least 8 characters long)
- ❖ Re-enter the desired password in the “Password confirmation” field
- ❖ To create a CSP account, you must also accept the Privacy Policy. Please read the Privacy Policy and Terms of Use documents and select the checkbox to Accept

Note by default, this account is the admin account for your company. Once set up, you can add users and assign them roles, including account administration.

Coupa Supplier Portal

Getting started with CSP

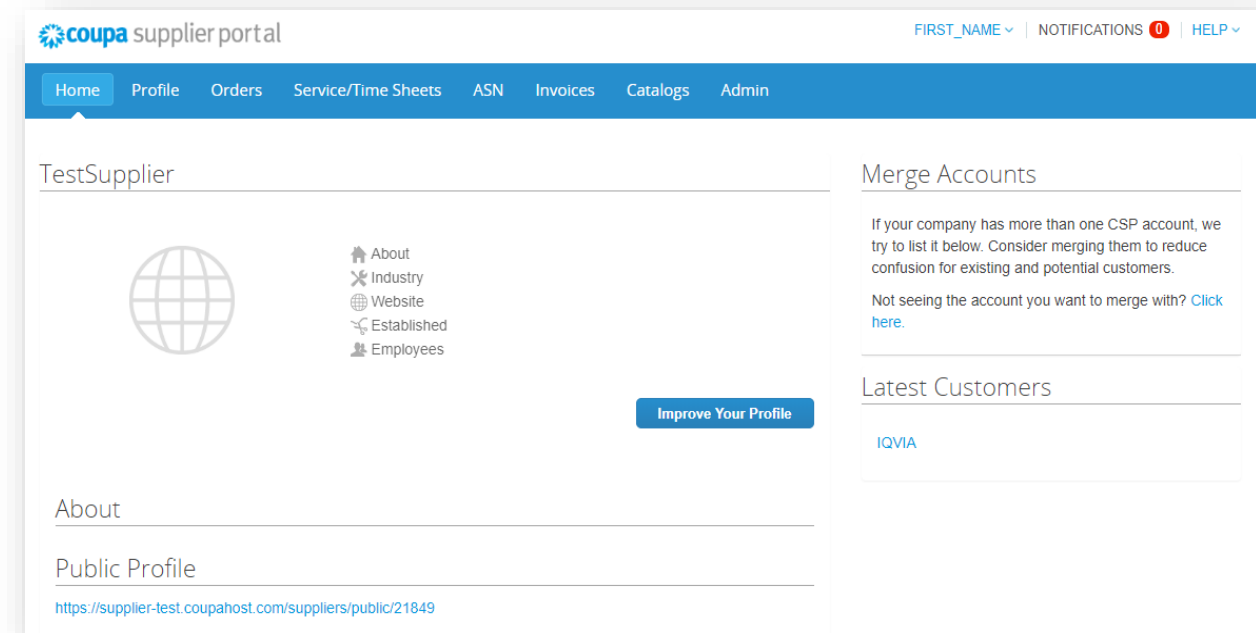

- ❖ On your first log in, Coupa takes you on a welcome tour.

- ❖ Warning: After logging in to the CSP as a non-admin user, you can see a banner listing your existing permissions and the permissions you can request from your admins. CSP admins that manage users are also notified through a banner to check their users' permissions.

Note: You can close the banner for the current session, but the message is displayed again after logging into a new session and clicking Submit.

- ❖ When you are finished, you will be taken to your CSP homepage

Set Up Legal Entities

- ❖ You must set up your account to create electronic invoices. From the Admin / Legal Entity Setup page add, manage, or deactivate legal entities, or manage remit-to accounts.
- ❖ You can provide more remit-to accounts and add this information to your legal entities so that your customers can use different payment methods when working with you.

The screenshot displays the Coupa Supplier Portal interface. At the top, the header includes the Coupa logo and 'supplier portal', along with user information 'MARGO', a notification bell with '56', and a 'HELP' dropdown. A blue navigation bar contains links for Home, Profile, Orders, Service/Time Sheets, ASN, Invoices, Catalogs, Add-ons, and Admin (1). Below this, the page title is 'Admin Legal Entity Setup'. On the right side of the page, there is a button labeled 'Add Legal Entity' (3). On the left, a sidebar menu lists various administrative options, with 'Legal Entity Setup' (2) highlighted in orange. The main content area features a table titled 'Legal Entity' with the following entries:

Where's your business located?

Setting up your business details in Coupa will help you meet your customer's invoicing and payment requirements. For best results with current and future customers, complete as much information as possible.

1 * Legal Entity Name

Country

This is the official name of your business that is registered with the local government and the country where it is located.

2

Cancel Continue

1. Add your Company Name and Country
2. Click Continue

1. For Canadian Suppliers, populate the QST Registration Number field with QST or PST tax registration of the Supplier. Click 'Save & Continue'.

Note: Leave this field blank if you only have HST or GST registered.

Set Up Legal Entities

1. You may have other customers that use Coupa. You can either restrict this address to IQVIA or you can make it available for you to assign to all your customers.

2. Enter your business address. Keep in mind, your remittance address MUST match what you entered in Oracle Cloud

3. If applicable, enter your Tax ID. If you are not registered, leave the field blank.

If you click the I don't have the VAT/GST Number field, it will ask for a Local Number, so don't check the box if this not something your country has.

4. Populate the 'Invoice From Code' field to have an RTA identifier associated with the new legal entity that is being set up.

This is useful if the supplier has multiple RTA's and can be used to differentiate between them. The supplier can populate this field with a code of their choice.

Once you fill in your company's information, click **SAVE & CONTINUE**
