IQVIA

IQVIA Global OneKey SAP Concur Connector

Save time and mitigate risk with access to open payments and accurate, transparent compliance reporting

> *Access accurate and complete healthcare provider (HCP) data in the United States and globally across 115 countries*

Today's reality

Companies need a simple, fast, and more accurate way to reconcile annual employee expenses and HCP transfers of high value to comply with mandated requirements and deadlines and avoid exposure to federal or state fines.

Unfortunately, many reporting processes are too cumbersome, take too long, require manual production, or risk the loss of critical, reportable expenses resulting from the compilation of multiple data sources, missing information or critical data fields, and a lack of access to a broad and accurate database.

Those reporting roadblocks are often exacerbated by suboptimal technologies that waste valuable time and resources, expose companies to unnecessary risk, or burden smaller compliance teams that could be working on more valuable projects.

The right solution

GLOBAL ONEKEY SAP CONCUR CONNECTOR

Gain visibility, improve compliance, and simplify the reporting process — for everyone.

OneKey data helps clients standardize actions and meet regulatory requirements for accurate reporting on HCP transfers of value. With IQVIA's Global OneKey SAP Concur Connector, organizations can access OneKey Data through a flexible API or fully integrated with SAP Concur Expense and Invoice Solutions. This enables compliance teams the ability to quickly and easily, submit annual Federal and State mandated expense reporting in a timely manner and without error to avoid risk of costly fines and audits.

Global organizations further benefit from IQVIA's OneKey ID serving as a unique identifier for BIG data integration into any technology, offering a 360° customer view and the ability to manage holistic, coherent, and personalized engagements across channels and throughout an organization.

OneKey's unmatched data accuracy arms company compliance programs with efficient and enhanced decision-making capability to uncover relevant HCP engagements and spend habits, and exposes high-risk employee activity upfront, enabling quick resolution and remediation opportunities for your finance and legal teams.

The IQVIA Global OneKey SAP Concur Connector lets companies

Quickly look up HCPs across the U.S. and in 115 countries

Collect data required for transparency reporting and compliance obligations worldwide

Extract U.S. or global OneKey data and place it directly into Concur Expense data entry forms

Get additional data attributes required for U.S. Open Payments reporting including NPI#, NPI Taxonomy, Multiple State Licenses, and Specialty

Integrate with the existing IQVIA Transparency Reporting Software Solution

Save time and avoid unnecessary risks and fines

Level up your compliance reporting

The IQVIA Global OneKey SAP Concur Connector is fully compatible with IQVIA's Transparency Reporting Solution providing companies with a way to collect data from both automated and manual sources while providing seamless integrated reporting and a user-friendly intuitive interface built on a best-in-class SaaS technology foundation.

Level up your compliance reporting with a versatile solution that also delivers:

- **Global coverage**
- **Integrated spend system capabilities**
- **Configurable business rules**
- **Legal monitoring and alerts**
- **Upstream data validation**
- **Data auditing and remediation**
- **Ease of implementation via SaaS technology**
