

The Cost of 340B to Maine

In 2025, workers and employers lost \$120 million in negotiated rebates to 340B

Despite advocates' claims that the 340B program is free, it raises costs for patients, employers, state and local governments, Medicare, and managed Medicaid. One way it increases costs is by displacing the negotiated rebates that are used to lower net drug prices. Research by IQVIA shows that workers and employers lost \$14.5 billion in rebates nationally in 2025 due to 340B.¹ The cost to Maine workers and employers in 2025 was \$120 million.

Cost of 340B to Maine workers and employers

PER BENEFICIARY	PLAN TYPE	TOTAL COST
\$170	Private sector employees ²	\$104M
	Government employees ³	\$16M
	Total	\$120M

The cost of 340B to Maine has increased substantially in recent years due to program growth. From 2023 to 2025, the number of healthcare providers prescribing 340B drugs, the number of 340B facilities and the value of 340B drug purchases all increased.

340B growth in Maine: 2023 to 2025

340B PRESCRIBERS		340B FACILITIES ⁴		340B DRUG PURCHASES ⁵	
#	GROWTH	#	GROWTH	#	GROWTH
10,875	+30%	222	+15%	\$1.1 billion	+40%

340B utilization in Maine is higher than some neighboring states, which all have greatly elevated levels compared to national average, indicating a strong 340B presence in the whole region.

Maine vs. neighbors

STATE	340B UTILIZATION ⁶	COST PER BENEFICIARY
ME	29%	\$170
MA	21%	\$124
NH	22%	\$127
VT	45%	\$260
Total U.S.	14%	\$81
