

The Cost of 340B to Nebraska

In 2025, workers and employers lost \$100 million in negotiated rebates to 340B

Despite advocates' claims that the 340B program is free, it raises costs for patients, employers, state and local governments, Medicare, and managed Medicaid. One way it increases costs is by displacing the negotiated rebates that are used to lower net drug prices. Research by IQVIA shows that workers and employers lost \$14.5 billion in rebates nationally in 2025 due to 340B.¹ The cost to Nebraska workers and employers in 2025 was \$100 million.

Cost of 340B to Nebraska workers and employers

PER BENEFICIARY	PLAN TYPE	TOTAL COST
\$88	Private sector employees ²	\$85M
	Government employees ³	\$15M
	Total	\$100M

340B also displaces rebates in managed Medicaid, which cost the state of Nebraska \$10M in 2025.

Cost of 340B to Nebraska managed medicaid

PER BENEFICIARY	STATE'S TOTAL COST
\$38	\$10M

The cost of 340B to Nebraska has increased substantially in recent years due to program growth. From 2023 to 2025, the number of healthcare providers prescribing 340B drugs, the number of 340B facilities, and the value of 340B drug purchases all increased.

340B Growth in Nebraska: 2023 to 2025

340B PRESCRIBERS		340B FACILITIES ⁴		340B DRUG PURCHASES ⁵	
#	GROWTH	#	GROWTH	#	GROWTH
9,527	+40%	505	+27%	\$993 million	+84%

340B utilization varies markedly across Nebraska and neighboring states, underscoring that the program's financial burden is not borne uniformly.

Nebraska vs. neighbors

STATE	340B UTILIZATION ⁶	COST PER BENEFICIARY
NE	15%	\$88
SD	33%	\$192
IA	23%	\$134
KS	14%	\$81
Total U.S.	14%	\$81
