

The Cost of 340B to Pennsylvania

In 2025, workers and employers lost \$566 million in negotiated rebates to 340B

Despite advocates' claims that the 340B program is free, it raises costs for patients, employers, state and local governments, Medicare, and managed Medicaid. One way it increases costs is by displacing the negotiated rebates that are used to lower net drug prices. Research by IQVIA shows that workers and employers lost \$14.5 billion in rebates nationally in 2025 due to 340B.¹ The cost to Pennsylvania workers and employers in 2025 was \$566 million.

The cost of 340B to Pennsylvania has increased substantially in recent years due to program growth. From 2023 to 2025, the number of healthcare providers prescribing 340B drugs, the number of 340B facilities, and the value of 340B drug purchases all increased.
