

# Connect Your Organization To A Single Source Provider for Reference Data

Today, your organization needs access to highly accurate prescriber, organization, and affiliation data. Deliver provider reference data in real time and you will transform the business. OneKey is the complete solution you need to drive your business forward.

With APIs, portals and integrated data services, OneKey significantly expands your connectivity to commercial business applications, tools and end users through flexible and easy-to-integrate solutions:

**APIs** to enable your critical systems and end-users with immediate and direct access to OneKey, including certified connectivity to Salesforce and Concur.

**Services** that empower your users to request specific changes or request a data investigation on a provider. OneKey includes integrated processes and workflows, connecting users with data operators ready to rapidly research and return each request as per a defined SLA.

**Portals** to enable your users to view OneKey and manage your subscription through any browser on any device. Increase end-user performance via realtime, on-demand access to the most up-to-date provider profiles and change requests. Complete healthcare professional or healthcare organization data can be downloaded in two clicks!

**Connectors** to seamlessly integrate OneKey with IQVIA technology solutions, including Orchestrated Customer Engagement (OCE), Master Data Management (MDM), and other solutions.

With this unparalleled access to any business application or enterprise platform, your organization can significantly increase productivity across the enterprise, drive better cross-functional collaboration and execution, and better inform your business strategies.
