

Remittance Insights

Analyzing remittance data drives new levels of insight into medical claims benchmarks to enhance market opportunity assessments and contracting strategies

Medical Remittance Claims Data

All-payer medical remittance data provides a more holistic view of reimbursement dynamics for provider organizations, including patient cost burden. As provider organizations negotiate existing contracts and evaluate market expansion opportunities relative to both demand and reimbursement, IQVIA's remittance medical claims provide timely insights highlighting payer penetration and benchmark reimbursement rates by carrier and plan type.

As the healthcare environment continues to evolve, the need to understand what impacts a patient's healthcare journey increases. More than ever, providers need awareness of reimbursement dynamics at the payer level to make informed market decisions related to financial and patient treatment impacts.
